

Advent 2021

Christmas Modelling Clay

Christmas today is often seen as a time for buying lavish or expensive gifts for many people, but it doesn't have to be that way. Why not make these pretty Christmas decorations to give to loved ones this year.

Buy modelling clay in festive colours from a craft store.

Mould into the shape of your favourite plant.

Add a pot and poke a hole in the top so you can hang it up!

Make a thin sausage of white to make a wire for the fairy lights.

Add the bulb, then bake in the oven at 100°C for 15 minutes.

Other decorations you can make are holly and berries...

...candy canes...

...cute little penguins...

...Christmas pudding...

...little stocking for all the family!
